FOR IMMEDIATE RELEASE:

MOORE ENERGY RECEIVES INCREASED CALLS DUE TO \$3 MILLION IN SOLAR REBATE MONEY STILL AVAILABLE

July 8, 2013 (Southampton, PA) - A total of \$3 million in solar rebates are up for grabs until December 31, 2013 through the Pennsylvania Sunshine Program. Pennsylvania based solar installer Moore Energy has received increased calls from residents and businesses looking to become more energy efficient by making the switch to solar. Until the end of 2013, businesses are eligible for solar rebates up to \$52,200, and residential installations are eligible for \$7,500.

“This is a great opportunity for Pennsylvania residents and business-owners to take advantage of attractive state incentives. Within the first year of owning a solar system, state and federal rebates will typically cover about fifty percent of the system cost” commented Barry Moore, President of Moore Energy. Moore Energy is one of the first Pennsylvania solar installation companies to be registered with the Pennsylvania Sunshine Program. They have completed more than 100 installations in Pennsylvania.

About Moore Energy:

Moore Energy is a premier firm specializing in solar photovoltaic power systems for commercial and residential properties. We are the single source for our customers providing the design, cost/benefit analysis, installation, and system maintenance. Moore Energy is committed to providing our clients with the highest level of service. All of our systems are professionally installed and fully tested by our specially trained installers.
